Modifications

We have made the following modifications to your dataset.

1. **README.txt**
 - a. We have constructed a README.txt file based on the ReDATA metadata that you provided and your responses in the README form. This file has been added to your deposit
2. **ReDATA Metadata.**
 - a. To make it easier to quickly understand the data, we added additional description to the one you provided. We based the description on the information provided in your paper. We added the same information to the README.txt. Please verify the additions are correct.
 - b. We split up the funding information into separate boxes to enable better cross-linking with the appropriate grants.
3. **Workbook header copyediting**
 - a. Based on your paper, the header “Reproductive clum(plant-1)” appeared to be a typo. We updated the header to “Reproductive culm(plant-1)”. We also updated the spelling in the README.txt and ReDATA metadata.
